

WP 9mm

Connecting window profile 9mm

NiP Spasic

Connecting window profile 9mm

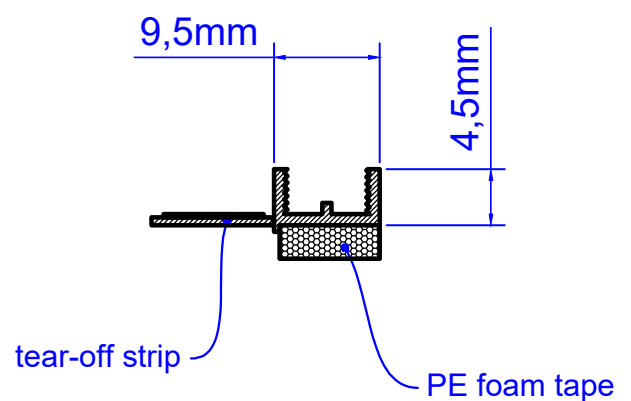

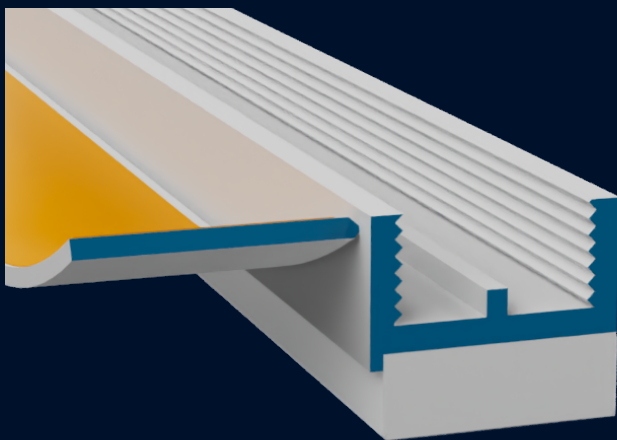

Length 1,4m / 1,6m / 2,4m

Colors ☐ ☒ ☐

This profile is designed to create a flexible seal between window/door frames and the plaster/render system. It prevents the formation of cracks caused by movement between the frame and the wall. It features a self-adhesive strip for attaching protective foil during the plastering process.

- ☒ Rigid PVC
- ☒ Tear-off Strip with Double sided adhesive tape
- ☐ PE foam tape Rainproof and UV-resistant tape
